

**Individual progress report for patient with diabetes
History of guidelines-based diabetes services**

Provider: Dr. Jones

Patient: Best Patient

DOB: 03/30/1951

Table 3. Individual history of diabetes services received

Encounter detail

Outpatient visits^a

Date	Primary diagnosis	Secondary diagnosis
9/18/2001 *		

Eye exams^b

Date	Primary diagnosis	Secondary diagnosis

Emergency department visits for diabetes

Date	Primary diagnosis	Secondary diagnosis

Hospitalizations for diabetes

Date	Primary diagnosis	Secondary diagnosis

Laboratory testing detail

HbA1c tests^c

Date
8/1/2002 *
3/22/2002

Lipid panel^d

Date
12/6/2001 *
4/22/2002

Nephropathy^e

Date
12/6/2001 *

Medication detail

For medications covered by the health plans

Name of medication	Date dispensed	Type/dose/unit
Glyburide	1/22/2004	
Rosiglitazone	1/22/2004	

Data source: Claims data from 12 Oregon health plans, 7/1/2001 – 6/30/2003.

Recommended action:

^aOutpatient visit for diabetes in the 12 months preceding the end of the reporting period.

^bDilated eye exam within 12 months preceding end of reporting period.

^cHbA1c test within 6 months preceding end reporting period.

^dLipid panel within 12 months preceding end reporting period.

^eTest for nephropathy within 12 months preceding end of reporting period.

*Indicates action may be due based on health plan records.

**Take action report for patients with diabetes
Guidelines-based diabetes services missing from patient record**

Provider: Dr. Jones

Table 2. Most recent diabetes services received with potential action items

Patient name	Date of birth	Outpatient visit ^a	Date of last known service				Patient ≥ 55 on ACEI ^f	Date last known ACE Rx	Total number of action alerts
			Eye exam ^b	HbA1c ^c	Lipid panel ^d	Nephropathy ^e			
Patient B	12/25/1935	9/18/2001 *	3/15/2004	8/11/2002 *	12/6/2001 *	unknown *	Yes	4/6/2003	4
Patient C	1/1/1925	6/3/2003	10/4/2003	3/5/2004	unknown *	6/3/2002 *	No *		3
Patient D	3/4/1961	11/8/2003	2/1/2002 *	1/7/2004	10/12/2002	6/12/2003	N/A		1

Data source: Claims data from 12 Oregon health plans, 7/1/2001 – 6/30/2003.

Recommended action:

^aOutpatient visit for diabetes in the 12 months preceding the end of the reporting period.

^bDilated eye exam within 12 months preceding end of reporting period.

^cHbA1c test within 6 months preceding end of reporting period.

^dLipid panel within 12 months preceding end of reporting period.

^eTest for nephropathy within 12 months preceding end of reporting period.

^fPatient is ≥ 55 and has filled a prescription for ACE inhibitor.

*Indicates action may be due based on health plan records.

Most recent services provided to patients with diabetes
A report of your patients with diabetes, as defined by data from 12 Oregon health plans

Provider: Dr. Jones

Table 1. Most recent diabetes services received

Patient name	Date of birth	Outpatient visit	Date of last known service				Patient ≥ 55 on ACEI
			Eye exam	HbA1c	Lipid panel	Nephropathy	
Patient A	10/12/1940	10/12/2003	12/06/2003	10/12/2003	10/12/2003	10/12/2003	Yes
Patient B	06/10/1926	09/18/2001	03/15/2004	08/01/2002	12/06/2001		Yes
Patient C	01/01/1925	06/03/2003	10/04/2003	03/05/2004		06/03/2003	No
Patient D	03/04/1961	11/08/2003	02/01/2002	01/07/2004	10/12/2001	06/12/2002	

Data source: Claims data from 12 Oregon health plans, 7/1/2001 – 6/30/2003.

Practice Summary Report
Based on National and Oregon Guidelines for Diabetes Care

Provider: Dr. Jones

Report D

Table 4. Provider summary of diabetes patients

Quality of Care Indicators	Total patients with diabetes	# who meet guidelines	% who meet guidelines
Outpatient visit ^a	26	24	92
Eye exam ^b	26	13	50
HbA1c ^c	26	17	65
Lipid panel ^d	26	19	73
Nephropathy ^e	26	15	58

Data source: Claims data from 12 Oregon health plans, 4/1/2002 – 3/31/2004

Recommended action:

- ^aOutpatient visit for diabetes in the 12 months preceding the end of the reporting period.
- ^bDilated eye exam within 12 months preceding end of reporting period.
- ^cHbA1c test within 6 months preceding end reporting period.
- ^dLipid panel within 12 months preceding end reporting period.
- ^eTest for nephropathy within 12 months preceding end of reporting period.

Patients with diabetes who have met National or Oregon guidelines for diabetes
